

Mustafa Samet DİNÇ

FULL STACK WEB DEVELOPER AND AUTOMOTIVE ENGINEER

ABOUT ME

I started my career in the Automotive industry and since 2022 because of my interest in software I am working on software.

In 2023, after my individual studies I joined the Workintech Full Stack Developer program. I realized about 80 projects in 6 months and Full Stack Developer processes.

In my achievements; for knowing what you want working with determination, to innovations and new technologies open, that my investigative aspects are effective I'm thinking.

My career goal is to be a part of the company's achievement of its corporate goals while continuing my personal development. Thus, in line with our common goals, as a software developer, I can find opportunities to add value to the value of my profession.

WORK EXPERIENCE

Workintech (January , 23 - Jul 23)
I completed the Full Stack Web Developer course.

GMV Şahin Rectified (Aug, 17- November 19)
